

PRODUCT SPECIFICATION REPORT

FORMULA 965™ Premium Car and Truck Wash

DESCRIPTION

A heavy-duty powdered car and truck wash for use in automatic and manual systems containing a blend of detergents, emulsifiers, wetting agents, complex polyphosphates, and other builders.

FEATURES

- Excellent brush lubrication
- Economical
- Free rinsing
- Heavy-duty
- Buffered

BENEFITS

- Lubricates and extends brush life and decreases scratches to vehicle.
- Super concentrated to allow for economical dilutions.
- Prevents streaking and water spotting.
- Removes even the toughest soils, dirt and grime.
- This heavy duty detergent is buffered and can be used on most vehicle surfaces.

APPLICATIONS

Specially formulated for brush-type, pressure systems, and manual car and truck wash operations.

- FOR AUTOMATIC, SELF-SERVICE AND MANUAL WASHING SYSTEMS
- HEAVY-DUTY CONCENTRATE EXCELLENT BRUSH LUBRICATION
- PRE-RINSE COMPOUND

Highly concentrated blend of detergents, builders, emulsifiers, wetting agents, and water softeners. Formulated for brush type, pressure systems, and manual car and truck wash operations. Designed for real cost savings per unit as well as excellent clearing qualities.

DIRECTIONS:

A liquid concentrate, for use in all areas of car wash operations for both manual and automatic applications, may be prepared by dissolving 1 pound per gallon of water at 70°F (21°C). Concentrate may be used for further proportioning just as you would use a regular liquid concentrate.

AUTOMATIC CAR WASH OPERATIONS:

1. For pre-rinse, add 10 lbs. per 50 gallons of water and inject into pre-rinse station at normal dilution using hot or warm water.
2. Brush application, add 1 to 3 lbs. per 100 gallons of water contained in the solution tank.
3. Rinse vehicle surfaces before applying rinse wax.

MANUAL CAR WASHING:

1. Add 1 to 2 oz. per gallon of hot water and apply by wiping, brushing, or using pressure washer. Do not allow solution to dry on car surface.
2. Rinse cleaned areas with clear water.
3. Wipe dry or allow surface to air dry.

SELF SERVICE CAR WASH:

1. Premix 15 lbs. per 50 gallons of water and proportion through Hydrominder (grey tip) into second tank; or premix 1-2 lbs. per 50 gallons of water.
2. Proportion this solution into hot water wash line through needle valve.
3. Rinse thoroughly after washing car or truck.

BIODEGRADABLE: All detergents used in the manufacture of this product are biodegradable.

CAUTION!

CAUSES EYE IRRITATION

Contact may produce skin and severe eye irritation. DO NOT swallow this product. Further information on the effects of overexposure is included on the Material Safety Data Sheet, which is available upon request.

Zep advocates limiting exposure to all chemical products. Wearing goggles or tight-fitting safety glasses is recommended, especially for contact lens wearers. The use of rubber, neoprene, nitrile, or other resistant gloves is strongly recommended for prolonged use. Wear dust excluding clothing. Remove contaminated clothing promptly and DO NOT rewear until thoroughly cleaned. After handling, wash hands thoroughly with soap and water.

FIRST AID:

EYES: Immediately flush eyes with plenty of water for at least 15 minutes, occasionally lifting the upper and lower eyelids. Get medical attention immediately.

SKIN: Immediately flush contaminated skin with plenty of water for at least 15 minutes. Get medical attention if irritation develops.

INHALATION: Move affected person to fresh air. Get medical attention immediately if irritation persists.

INGESTION: If this product is swallowed, DO NOT induce vomiting. If affected person is conscious, give plenty of water to drink. Get medical attention at once.

DISPOSAL AND/OR SPILL INFORMATION: As with all cleaning and maintenance procedures, run-off from the cleaning or maintenance process should be diverted to a collection vessel, or where permitted, to a sanitary sewer (consult local and state regulations) and not allowed to soak into the ground or to enter a storm sewer. If this product is spilled or contaminated and cannot be used, creating the need for disposal, pick up and deposit spilled material in a sealable container for disposal. Rinse area well with water.

Storage: To seal out moisture, keep container tightly closed when not in use. Store in a dry area.
